

## Introduction

This one-day workshop will be of interest to all concerned with policy and practice in the delivery of medical education at both undergraduate and postgraduate levels. It will examine and discuss issues related to medical education in Sudan and come up with recommendation for the delivery of medical education.

## Aim of the workshop

To provide a forum for a broad discussion on the principles and future directions of medical education in Sudan and propose in a draft report their vision to influencing both policy development and practice in this area.

## Target audience

To meet this aim, the target audience will include participants from: Specialist Associations in the Sudan, Sudan Universities, Sudan Doctors Union membership in the UK and Sudanese doctors in the UK.

## Format

The workshop will include plenary sessions and opportunities for small group discussion. A final plenary will consider the output from the workshop and a full account of the proceedings will be produced in Alhikma.
